Projects

[Online Course](#) | *NodeJS, NestJs, PostgreSQL*, | October, 2024

In this project, I made an online course website where the client can register, view courses and view course modules. It is possible to join the courses. There will be a separate admin who can change and update courses.

[Spotify](#) | *NodeJS, NestJs, PostgreSQL*, | November, 2024

In this project, I built a music streaming platform where users can browse songs, create playlists, and manage favorites. Admins can manage artists, albums, and songs, with authentication and role-based access control.

[Soand](#) | *NodeJS, Javascript, MongoDB*, | January, 2025

I developed a discussion platform where users can register, log in, and participate anonymously. They can create topics, post comments, and engage in discussions in a secure environment.

Technical skills:

NodeJS, JavaScript, TypeScript, GraphQL, MongoDB, PostgreSQL, OAuth, Express.js, NestJS, Socket.io, Prisma, TypeORM, Telegram bot, Redis, Docker, Docker-compose, Git, Github, REST API, JWT, Sequelize, Microservices, HTML, CSS, Burp Suite, Nmap, Wireshark, VirusTotal, FTK Imager.

Soft skills:

Communication, Leadership, Adaptability, Problem solving.

Education

Tashkent University of Information Technologies | Cybersecurity
September, 2021

Najot Ta'lim, Tashkent – Backend development.
February 2024 – October 2024.

English centre, Tashkent – Cambridge Learning Centre.
March 2023 - September 2023.

Languages

Uzbek - Native | English – Pre-Intermediate | Russian - Intermediate.

Certifications

Certificate Standard NodeJS | Najot Ta'lim | October 2024
For successfully completing the course.
